

## SUSTAINABILITY POLICY

We enrich the lives of people and the planet with the transformative power of our business models. That is why we seek a better world. One in which we will make the world our home by promoting innovative actions to make it more **prosperous, inclusive and green** every day.

### PROSPEROUS

We offer innovative solutions to generate progress and competitiveness in our environment.

### INCLUSIVE

We support everyone's life projects to promote equity and equal opportunities.

### GREEN

We promote forward-looking initiatives to contribute to the regeneration of the planet.

We understand the value of sustainability when it is aligned and managed within the business strategy, generating value to all our stakeholders and to the organization, in terms of higher revenues and lower costs or risk mitigation.
